Spectroscopist/Trainee Wanted

Spectrum Plus, a twenty-eight year old established Analytical Instrumentation Service business with headquarters in the Pacific Northwest is seeking an entry level or intermediate level applicant to be trained in the field of Spectroscopy.

The ideal applicant will have a strong interest in spectroscopy and some work experience in the field. The applicant will work along side the current owner~ a twenty-eight year veteran of the field~ for a period to be determined (but it is anticipated for a one year time length) before commencing sole operation.

Applicants possessing a degree in Electronics or a similar qualification are encouraged to apply. Experience with XRD/ICP/OE /Phoenix fusion equipment is viewed with high desirability.

Spectrum Plus is involved in the spectroscopy field, servicing analytical equipment nationwide. We are seeking an applicant residing in the North-East/South-East, who is prepared to travel/service the area east of the Mississippi. A contract and non-compete agreement will be required.

Applicants are encouraged to forward resumes (in WORD format), with work/education experience and references to service@spectrumplus.com. (Please reference Position #SPsp01). Salary to be determined according to experience/education.

Spectrum Plus is an Equal opportunity Employer.
