2019 Pittcon College Equipment Grants Program

Dear Professor:

The Spectroscopy Society of Pittsburgh (SSP) is dedicated to promoting science education in colleges and universities by providing instrumentation and supplies through the Pittcon College Equipment Grants Program (CEGP). The purpose of this equipment grant is to contribute to science programs at colleges and universities with enrollments of no more than 7,500 undergraduate students. The grant was created to be used to assist with the purchase of new instrumentation or to upgrade existing instrumentation, accessories and equipment related to the study of spectroscopy. The maximum amount of the grant is \$6,000.

All colleges and universities are eligible whether or not they are public or private institutions. Only institutions located within and 100 miles outside the SSP active membership geographical boundaries are eligible to apply for this equipment grant.

Institutions are only eligible to receive a grant every two years; therefore, the 2018 Grantee Schools are not eligible for a grant in 2019, and thus should not apply this year.

Below is a list of the 2018 Pittcon College Equipment Grants Program recipients:

Ashland University	Muskingham University
Bucknell University	Robert Morris University
Carlow University	St. Vincent College
Chatham University	Washington & Jefferson College
Fairmont State University	Waynesburg University
Kent State University @ Stark	

Applications must be received by March 1, 2019. All colleges and universities that submit an application will be informed of the results by early May. The grants will be presented at the annual SSP Awards Night in May. The application is available on the SSP website, www.ssp-pgh.org.

In recent years, grants were awarded to approximately 50% of the colleges and universities that submitted applications.

We look forward to receiving your proposal. Submittal instructions can be found below.

Sincerely,

Mackenzie Speer
Chair, 2019 Pittcon College Equipment Grants Program
